

INFORMATION

FOAMFREE-V

DEFOAMER

DESCRIPTION

FOAMFREE-V is a concentrated modified vegetable oil product that is highly effective as a defoamer in removing entrained gas or air from all water-base mud systems. It is soluble in water and alcohol, and slightly dispersible in kerosene and heavy aromatic solvents. FOAMFREE-V has a specific gravity of 1.013, a weight of 8.44 ppg, a flash point (T.C.C.) of more than 170° F and a pour point of 40° F.

APPLICATION

FOAMFREE-V is recommended for use under a wide range of conditions where foaming or entrained gas is a problem.

RECOMMENDED TREATMENT

The required treatment of FOAMFREE-V will depend upon the type of mud system in use and the severity of the problem.

Generally, the range of treatment will be between 1 to 5 gal of FOAMFREE-V per 100 bbl of mud.

FOAMFREE-V may be used in the present form or may be further diluted.

MISCELLANEOUS

Prices and delivery schedules are available from any Messina office, area representative, or local distributor.

PACKAGING

FOAMFREE-V is packaged in either 5 or 55 (US) gal (18.9 or 208.2 litre) steel drums.

FOAMFREE-V is a Messina trademark
