

INFORMATION

FOAMFREE-WF9

DEFOAMER/ANTIFOAMER

DESCRIPTION

FOAMFREE-WF9 is a silicone type defoamer and antifoamer in a medium chain alcohol base carrier. It contains no diesel. It is used to control foams in aqueous systems including drilling muds.

It does not contain diesel. The product's typical properties are:

Form	White, opaque liquid
Viscosity @ 75° F., cPs	Less than 1000 cPs
Pour Point	Above 5 °C
Flash Point	>150
Specific Gravity	Approx. 0.98 - 1.02
pH	6.5 - 7.5

RECOMMENDED TREATMENT

FOAMFREE-WF9 is most effective when sprayed or misted on a foamy or gas cut mud. The product can also be dripped or trickled into the mud stream at the flow line or ditch. FOAMFREEWF9 is a true antifoamer, and as such, the product retards foam generation. FOAMFREE-WF9 is especially effective in polymer drilling, workover, and completion fluids.

PACKAGING

FOAMFREE-WF9 is packaged in 5 gal/19 litre pails. 55-gallon drums, or alternative packaging is available upon request.

FOAMFREE-WF9 is a Messina trademark
