

INFORMATION

OIL AID-BG-20

BUFFER FOR WATER GELLANTS

DESCRIPTION

OIL AID-BG-20 is used in conjunction with selected breakers when longer working time is desired. Its properties are:

Form	White Powder
Specific Gravity	2.53

APPLICATION

OIL AID-BG-20 will moderate the break time of high viscosity gelling agents.

RECOMMENDED TREATMENT

The recommended treatment level of OIL AID-BG-20 is one lb per 1000 gal. Higher concentrations of OIL AID-BG-20 will not appreciably increase the working time. Tests should be run with the proper concentrations of all materials and at relevant temperatures to determine exact break time.

HANDLING

Avoid eye contact. Skin contact could cause minor irritation. Chemical goggles are required. If a dusty environment is created, wear a respirator. Dust may be irritating, if breathed.

PACKAGING

Bags of OIL AID-BG-20 should be handled carefully to avoid creating dust.
